

Comments from doctors attending the
Quintessential Applications: A(K) Clinical Protocol Course
in Philadelphia, 2005-2006:

“Thank you for putting this material together and saving me years of work...”

“QA is the best thing I’ve found for my own personal health as well as the health of my patients.”

“I believe this course is the opportunity of a lifetime.”

For complete comments, see below.

QA has taken AK from “fix what you find” to a 32 step protocol that gives the doctor a definite place to start and a clear path to follow. I took my first AK course in 1979, became a diplomate in 1991, then a certified teaching diplomate and taught the 100 hour course for several years. *QA* is the best thing I’ve found for my own personal health as well as the health of my patients.

-Janet Calhoun, DC, DIBAK, Hummelstown, PA

I’ve been practicing 21 years. I started AK about 5 years ago. What a wonderful set of tools to help people regain health. *QA* takes those tools and organizes them and allows me to know in what order to use the tools. Kudos.

I look forward to the new material each weekend. After every weekend there is great information that I can use Monday morning. Thank you for putting this material together and saving me years of work so I can get on to the business of helping all those deserving patients.

-Thomas R. Heath, Shippensburg, PA

Awesome! *QA* is giving me the truly holistic tools to become the doctor I aspire to be. It is a wonderful blend of science and practical information. I only regret not having done this 16 years ago. I believe this course is the opportunity of a lifetime.

-Laura R. Chaffiotte, DC, CCN, DACBN, Frederick, MD
